## STEAMERS MEET IN FOG AND MANY ARE DROWNED.

Port Huron, Mich., May 24.—The steamer James B. Wood, of the Gilchrist fleet and the steamer Frank H. Goodyear, the latter carrying a crew of twenty-three men, collided in a dense fog yesterday morning thirty-five miles north of Point Aux Barques in Thunder Bay. It was reported at first that nineteen lives had been lost, as the Goodyear sank soon after the collision, but it is known that six members of the crew, including Captain F. R. Heminger, were rescued by the steamer Wood and taken to Port Huron.

The steward's mother and a wheelman were among the saved. A number of the Goodyear's crew are said to have been killed by falling hatchways. A baby of the Goodyear's cook was dashed from his arms by a falling hatch.

It is believed that others of the crew were rescued by the steamer Sir William Siemens.

It now seems probable that seventeen lives were lost as the steamer Siemens passed Detroit this morning and did not report any survivors.

## RAILROAD OPERATORS POISONED BY ICE CREAM.

Wichita, Kan., May 24.—The office of the Missouri and Kansas Telephone Company was converted into a temporary hospital last night when nine operators became violently ill after eating ice cream purchased at a nearby confectionery store. The physicians pronounce it ptomaine poisoning. Three of the patients, including the chief operator, may not recover.

## IRVING, THE BOOSTER TO SPEAK FRIDAY NIGHT.

A crowd of about twenty-five leading business men were at the Commercial Club at nine o'clock this morning to hear the lecture of Geo. B. Irving, industrial promoter and all around booster, and the men present declare that he is a wonder and that his ideas on municipal progress and

## SMALLEST BOYS WIN IN COMPETITIVE DRILL.

The feature of today's commencement exercises at the Military Institute was the competitive drill by the three companies at ten o'clock, before Governor Mills, the members of his staff, the judges, who were Adjutant General A. S. Prookes and Capt. M. S. Murray, and many visitors. The drill was executed in fine shape by all the companies, but the award of first prize went to "C" Company, which is made up of the smallest boys of the school, and is commanded by Capt. Allen. "A" and "B" Companies each received a grade of 92 and a fraction and "C" Company 97 and a fraction.

The program opened at 9:40 this morning at the Institute with the firing of a Governor's salute. Then came Butt's manual for fifteen minutes, and

plans for advancement are worth going many miles to hear. The business men present were so favorably impressed that they have prevailed upon Mr. Irving to remain until Friday night and give another lecture at which all the business men and citizens generally may be present. The Armory has been secured for the meeting. Mr. Irving has the power of instilling into his hearers the enthusiasm he carries and of making the people take a new hold on the community interests. A big meeting is desired for Friday night.

handled six chances. Brueggemann fielded two. Stains, at first, had six. Paul Bird, at short, had four opportunities to make a bobble, but handled all of them nicely. Lohman, the old timer, caught a fine game allowing but three stolen bases, catching one runner and playing without battery error.

The cadets of course fielded well. They always do. Colquitt at second, handled eight out of nine chances and worked in fine shape. Riggins, in the box, had six chances, fielding five. His one error was made in delaying a ball that belonged to second.

The game was to have been a seven inning contest, but at the close of the seventh the score was one to one, and two more innings had to be played before the winning run came in. The cadets won in the last half of the ninth on three hits, making the only earned run of the game. It was a highly satisfactory contest from the spectators point of view, everything moving along with rapid change of scene. The whole game was but an hour and ten minutes in duration.

The official score:

"Today is the Day of Salvation" and sinners are being saved. It is worth while to "save a soul from death." The good people of Roswell are aroused. While E. O. Sellers is here, and this week is his last, let all make the most of the opportunity.

## CADET-ALUMNI GAME A SURPRISE TO EVERYBODY.

A big crowd witnessed the defeat of the N. M. M. I. Alumni by the cadets of the school in their base ball game at Amusement Park yesterday afternoon, and every last one of the spectators was surprised at the quality of base ball put up for the occasion, especially at the work of the alumni, which was expected to be a little loose. As told in the Record yesterday, she cadets, won by the score of two to one, but nobody expected a game like that.

Riggins was in the box for the cadets and his pitching was the feature of the game. He allowed but four hits, struck out eleven, passed one and hit one. Brueggemann, for the alumni, pitched a good game, also, permitting eight hits, striking out eight and passing three.

The fielding was made up of an afternoon of pretty work on both sides. The outfield for the alumni, and Dow on third base, made the feature plays of the afternoon. In the outfield were Jim Chaves, Ted Bedell and Will Woodruff, two "has beens" and a "to be'er." These three fielders each had one chance and made good, to the surprise of everyone. Of course Teddie was supposed to make good, which he did in his usual form. But the outfielders also showed their lack of practice by throwing wild after nicely capturing the ball. Woodruff, in throwing to first from left field put the ball into the middle of the bleachers. Hill Dow, on third for the "has beens," let a runner down on a fumble, but immediately redeemed himself by catching a line drive and throwing out at first the runner he had just let escape, making the prettiest double play of the game.

Jim Chaves was a wonder at bat, getting down once when hit with the ball. But the crowd enjoyed his terrible swings more than the longest hits of the heavy hitters. Jim showed his utter disregard of the plaudits of the grandstand by permitting his socks to lie in rolls at the tops of his shoes.

All the rest of the alumni, not mentioned in the amateur quartette, played without error, which figures it out as a clean game. Leland, on second,

## SCIENCE HALL OF N. M. UNIVERSITY BURNED.

Albuquerque, N. M., May 24.—Hendley Science Hall, one of the handsomest and most costly of the buildings of the University of New Mexico, was completely destroyed by fire at two o'clock yesterday morning. Unless it was caused by crossed wires, the cause of the fire is not known; and this as a cause is but a theory. School is out and no person had been in the building for thirty-six hours. When discovered the fire was well in command of the building, and no person entered to save the costly scientific apparatus, fearing the explosion of chemicals in the laboratories. The Albuquerque fire department never reached the scene, being stopped by the sand on the hill leading to the school. Absolutely nothing could be done to save building or contents and destruction was complete. The building cost \$20,000 in 1883 and the apparatus and equipment cost over \$85,000. Some of the apparatus and curios of the Southwest can never be replaced.

## TEDDY CALLS ON ALEX. ANDRA AND HAS LONG CHAT
